THE NEWS.

The grandest news we have been called upon to record during the past four years, is that which numbers the days of the rebellion. The rebel capital is now occupied by our forces, the rebel army is fleeing before Grant, disheartened, discouraged and demoralized. Whatever hopes Jeff. Davis may entertain of again rallying the rebels, the news of their last discomfiture will, both at home and abroad, be regarded as numbering the duration of their hopeless but desperate struggle. The confederacy is defunct and not a few of its own adherents will rejoice that a fruitless strife is near its termination.

It is believed that Grant will be able to cut off Lee's retreat at all points. A rumor in New York on Monday reported that Grant had captured [illegible] prisoners, and that Lee had surrendered. The story lacks confirmation, but an ultimate result of this kind is not improbable. Without a capital, almost without a show of organization, without resources, with an army under the depressing influence of both mental and physical suffering, it would be a mercy to themselves if all would surrender and return to their allegiance.

Gen. Weitzel telegraphs from Richmond that he found there 28 locomotives, 44 passenger and baggage cars, and 106 freight cars.

From [illegible] to 18,000 prisoners have been captured.

The Hon. Jas. R. Doolittle returned to his home in this city on Saturday last. To say that he is most cordially welcomed in our midst, that he commands the respect and the confidence of the citizens of Racine, as well as of the whole State, is to assert a fact as well understood as it is generally conceded. We are not among the partizan friends of Judge Doolittle, whose fanatical characteristics we can neither sympathise with or admire,—but we are free to say that we consider him one among the few conscientious and upright public men that the country now has in its service, and especially that belong to the party in power. With the prominent men of all parties, the integrity of Judge Doolittle is unquestioned. It is this trait of his character, added to his ability, that has kept him at the head of the Wisconsin delegation at Washington, and makes him one of the most trusted and reliable advisers of the Government. Like the venerable Henry Dodge, Judge Doolittle's course in the Senate has been such as to inspire men of all parties with confidence in his honesty. Dodge had not been favored with Judge Doolittle's early professional and literary advantages, but he more than made up for those by a keen appreciation of character, and quick intellectual faculties, which reached conclusions with the rapidity and certainty of instinct or revelation. When Henry Dodge made a statement in the Senate or before any of the departments, it was always fully accredited, whether made to political friend or enemy, and no man dared to gainsay it. It affords us pleasure to say that Judge Doolittle has attained a similar character for conscientious rectitude and fidelity to trusts at Washington, to that borne by his venerable predecessor. Add to this his ability as a speaker and thinker, and it is a matter of no surprise that he is ranked to-day as one of the eminent men of the nation.

Public men of Judge Doolittle's peculiar type of character, generally have to encounter the opposition of sordid intriguers and malignant and visionary destructives. The first are naturally destitute of correct moral principles or a proper sense of shame, while the latter are unmindful of them from blind passion. They form a peculiar species that every honest and forcible public man has to encounter and shake off as best he can. That Judge Doolittle has his share of the annoyances of the kinds indicated, the proceedings of the national Senate and the mutterings of the narrowly selfish at home sufficiently attest. Both, however, will pass away, as error is ever compelled to disappear before the right and the true. An eloquent and popular English writer who has had much and varied experience in public life, says, "a living public man is a struggling fellow mortal." To encounter abuse and misrepresentation is one of the penalties to successful political life. No public man can preserve his self-respect and the confidence of those he represents, and silence the clamors of the venal or meet the wishes of the malignantly insane.

"Let Hercules himself do what he may,
The cat will mew, and dog will have his day."

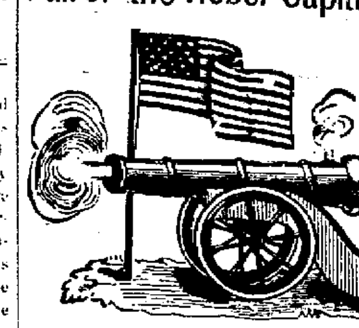

LEGISLATION.—As the session of the legislature is drawing towards its close, it is giving most extravagant examples of bad legislation. During the past week the insurance bill has been enacted, the main feature of which requires the insurance companies to take the bonds of the State. This is intended to make a market for State bonds, and relieve the banks of those held by them; and it is an arbitrary act, requiring insurance companies to invest their funds in accordance with the financial caprices of those who are moved by motives other than the good of the State or the people. When the credit of the State requires vindication or support by submitting to the dictation of the banks, it is an admission of weakness that requires greater wisdom than has just been exercised. Messrs. Case, Webb and Van Wyck, in the Senate, and Vaughn in the Assembly, had the independence to vote against it.

Another, called the currency bill, has been enacted, requiring the immediate payment of all sums due the school fund, a failure working forfeiture in a limited time.

RICHMOND ON FIRE.

Grant Moving to Cut off Lee's Retreat.

The President Gone to the Front.

NEW YORK, April 3—10:15 A. M.—Official report from Gen. Grant announces the evacuation of Petersburg, and the belief is that Richmond is also evacuated.

WAR DEPARTMENT, WASHINGTON, April 3, 10 a. m.
To Major Gen. Dix:

It appears from a despatch of Gen. Weitzel, just received at this Department, that our forces under his command ARE IN RICHMOND, having taken it at 8:15 this morning.

WASHINGTON, April 3.
Major General Dix:

The following official confirmation of the capture of Richmond, that the city is on fire has just been received by this Department.

CITY POINT, April 3, 11 A. M.
Gen. Weitzel telegraphs as follows: We took Richmond at 8:15, and I captured many guns. The enemy left it in great haste. The city is on fire; we are making every effort to put it out. The people received us with enthusiastic expressions of joy. Gen. Grant started early this morning, with his army, toward the Danville road, to cut off their retreating army, if possible. President Lincoln has gone to the front.

E. M. STANTON, Sec'y of War.

CITY POINT, April 2, 8:30 P. M.
Hon E. M. Stanton:

At 4:30 P. M. to-day, Gen. Grant telegraphs as follows; "We are now up, and have a continuous line of troops, and in a few hours will be intrenched from the Appomattox below Petersburg, to the river above.

The whole captures since the army started out, will not amount to less than 12,000 men, and probably 50 pieces of artillery. I do not know the number of men and guns accurately however. A portion of Foster's division 24th corps, made a most gallant charge this a. m., and captured a very important fort from the enemy, with its entire garrison. All seems well with us, and everything is quiet just now.

A Great Battle in Virginia.

NEW YORK, April 3.

The Commercial's Washington special says: "It is said that a great battle remains to be fought in Virginia, and that General Lee has some of the means of making a formidable resistance; but it is believed the war is substantially ended, and that humanity will induce the enemy to abandon the contest.

"It is reported that Maj. Gen. Robt. Porter was dangerously wounded."

MOBILE.

Belief that Mobile is now in Federal Possession.

NEW YORK, April 3.

The Commercial's Washington special says: "Intelligence received here from the headquarters of our forces warrants the assurance that Mobile is now in our possession. Important positions had been taken, which promise to place the city at our mercy."

Expectation that the President will Issue a New Proclamation of Amnesty.

NEW YORK, April 3.

The Herald's Washington special says: "It is expected that the President immediately upon the occupation of Richmond, will issue a new proclamation of amnesty.

Movement for the Return of Virginia to the Union—Lee to Abandon the Rebel Cause.

NEW YORK, April 3

The Post's Washington special says: "It is reported that there will be an immediate organized movement for the return of Virginia to her place in the union, in which case Lee will abandon the rebel cause."

THE FORWARD MOVEMENT.

Gen. Grant's Headquarters in the Advance.

WASHINGTON, April 1.
To Major General John A. Dix:

The following telegram in relation to the military operations now going on at the front was received this morning. Nothing later has reached this Department.

E. M. STANTON.
Secretary of War.

DISPATCH FROM PRESIDENT LINCOLN.

CITY POINT, Mar. 31—8:30 a. m.
To Hon. E. M. Stanton:

At 12:30 this afternoon, General Grant telegraphed me as follows:

"There has been much hard fighting this morning. The enemy drove our left from near Dabney's house back well towards the Boydtown plank road.

"We are now about to take the offensive at that point, and, I hope, will more than recover the lost ground."

Later he telegraphs again as follows:

"Our troops, after being driven back to the Boydtown plank road, rallied and drove the enemy in turn, and took the White Oak road, which we now have. This gives us the grond occupied by the enemy back. There have been four flags captured to-day."

Judging by the two points from which Grant telegraphs, I infer that he moved his headquarters about one mile since he sent the first of the two dispatches.

(Signed) A. LINCOLN.

OPERATIONS OF THE DAY PREVIOUS.

HEADQUARTERS ARMY OF THE POTOMAC, March 30—afternoon.

Notwithstanding a heavy rain storm, which set in last night and continued until late this afternoon, the army has to-day advanced about two miles. The 5th Corps has reached the Boydtown plank road, near its junction with the White Oak. This is the place where the 2d Corps had an engagement with the enemy last autumn, in which it suffered severely. The ground gained to-day cost us but a few men, the rebels making but very slight resistance. At Hatcher's Run, which is only a short distance further on, the enemy have strong earthworks erected and defended with heavy guns, and here they will no doubt make a stand to oppose our further advance. From this point the new line extends to the Armstrong Mill, the 2d Corps holding the right of this position. In the engagement yesterday the number of prisoners taken was 125, with 8 commissioned officers. They belonged to Bushrod Johnson's command, and were a part of the force that made the attack upon our lines last Saturday.

The rebels made a demonstration at several points on the old line last night for the purpose evidently of ascertaining whether the works were held in force. They did not gain anything, however, excepting the information that the line was strong enough to defend itself.

This explains the firing heard at City Point on Wensday night and early on Thursday morning.

Nothing has yet been received here as to the operators of the cavalry, but they will, it is not doubted, give a good account of themselves.

A battle is expected to-morrow for the possession of the South Side Railroad, and, judging from the confidence and high spirits of the officers and men, there will be a good result.

W. D. McGREGOR.

WEDNESDAY'S OPERATIONS.

NEW YORK, April 1.

The New York Tribune's 5th Corps special, March 29th, six o'clock in the evening, says: At four o'clock this morning the 5th and 2d corps were put on the march upon the rig t of the enemy's line, the 6th moving by the Quaker road. On coming to a point called Skunk's Hold, mounting the brow of the opposite slope, a breastwork was found abandoned by the enemy. Passing about three-quarters of a mile beyond this, the head of the column of the enemy's line was discovered, posted on the edge of a thick pine wood belting a clearing. Here a sudden and heavy fire was opened on our skirmish line, and it was driven back on the line formed of the first brigade of the 1st division, which at first fell back, but being supported by the 2d brigade, rallied and drove back the enemy with some loss in prisoners. In the meantime, General Warren drew up the 1st and 3d divisions of the 5th corps in line, in order to support the attack. After an action of about three-quarters of an hour, the enemy retreated in haste, leaving most of his dead and wounded on the field. The 5th corps now lies on the ground that was won. The force of the enemy that was engaged was one division of their 4th corps, under General Bushrod Johnson, its strength being about six thousand. Our loss may reach from 300 to 400 men, killed and wounded. That of the enemy in killed and wounded appears to be about the same, but the number of prisoners, some one hundred and fifty to two hundred, render their total loss greater than ours."

The New York Tribune's norrespondence, dated Gravelly Run, on the night of the 29th, says: "By the movement of to-day, our original line, which extended on the left to Hatcher's Run, has been prolonged beyond the run westward across the Vaughan and Quaker woods, facing northward, to within about two and a half miles of Dinwiddie Court House.

"The Lieutenant General, accompanied by General Williams and Ingalls, and several members of their staffs, came up to Humphrey Station, near Hatcher's Run, 11 o'clock this morning, and soon after crossed the river visiting different points along our line, and establishing headquarters for the night on Vaughan Road near Gravelly Run. General Meade accompanied our advance earlier in the morning, and, likewise, has his headquarters on the Vaughan Road, two miles from Hatcher's Run."

NEW YORK, April 3.

The Tribune's special gives the following account of Friday's fighting:

At daybreak, a movement was made to secure a position to advance upon the enemy, covering the White Oak road. The object being to possess that road which intersects the Claiborne road, leading to the South Side railroad.

At 8 o'clock, Ayer's division, supported by Crawford's and Griffin's advanced, and immediately met with resistance from the rebel skirmishers, who were pushed back to within a mile of White Oak Road.

At this juncture the enemy massed, and with their usual yell charged. Our column wavered for a time, and finally gave way, retiring slowly toward Boydtown road.

Halting on a hill, they were supported by Griffin's division which had just come up, and took shelter in the breastworks.

The enemy made several ineffectual attempts to dislodge them. A fierce fire of artillery and musketry meanwhile poured death into the ranks of the rebels.

At one o'clock, Mile's division was ordered to strike the enemy on the left flank, while the 5th corps again essayed to get possession of the White Oak Road, by advancing immediately. The 5th corps moved upon the enemy, who stubbornly held his ground for some time, when the rapid volleys from the right and loud cheers told the successfull issue of Miles' attack on the rebel flank, as he rolled up the enemy's line, now broken, routed and falling back, incontinently followed by Warren's 5th corps, which was soon in possession of the coveted White Oak Road.

The field shows on every hand traces of sanguinary conflicts. Huge pines cut down by shot, and the ground over which Miles swept down in *echelon* upon the enemy's flank, was covered with the rebel dead. While this was going on, heavy skirmishing was taking place on our line as far as Hatcher's Run, and our troops in that direction were advanced several hundred yards, and entrenched while the sharpshooters were engaged silencing the rebel batteries. Among the killed is Maj. Chas. A. Mills, Adjt. to Gen. Humphrey.

SHERMAN'S INTERVIEW WITH GRANT.—The *Herald's* army of the Potomac special says Sherman, on Monday, reported in person to Grant, at City Point. The interview was cordial and friendly in the extreme. A number of Grant's staff and corps commanders were present at the reception of Sherman. Sherman, in reply to the congratulations presented, said that his success was assured from the commencement, and the enemy were unable to make any serious opposition. He said that his boys had no trouble at all in chasing the rebels. Grant and Sherman, after a brief consultation in the headquarters tent, had an interview with the President. Sherman gave Mr. Lincoln a graphic account of his operations, and represented that his army had accomplished the grandest results. A council of war was held in the evening, at which the President and Gens. Grant, Sherman, Meade, Ord and Sheridan were present. The session was prolonged till 10 o'clock, and no doubt related to the spring campaign now inaugurated. On Tuesday morning Sherman took leave of his old companion-in-arms, and returned to Goldsboro in a special dispatch boat.

The *Tribune's* army of the James special says the battle flags taken from the enemy are now in the office of the Assistant Adjutant General. They are mere rags of bunting tied upon a flag-staff of pine wood, and have evidently been in many a fight. The flags are to be sent to Washington.

NEW YORK "Fashions" say there is a change already in the waterfall pins, facetiously called by men "dumb bells." The pins with huge balls at each end, connected by an elastic string, were considered the height of style. These have been superceded by the most fantastic and really grotesque shapes. Made of ebony, cornelian, amber, bronze, coral, silver, steel, and gold—carved, inlaid, and covered with golden frame-work—every imaginary design is imitated, too numerous to enumerate. The most elaborate are bronzed wheels, each spoke covered with fine arabesques. Arrows inlaid with gems; onyx seals with pendants of golden bells; white lilly cups, with broad green enameled leaves; gold and silver trumpets—these will give an idea of the caprice and extravagance of fashion.

THE EDITORIAL CONVENTION.—We are in receipt of the proceedings of the last Editorial Convention, a very neatly printed pamphlet, and tastefully arranged, and to be had of the Recording Secrectary, Hon. James Ross, of Madison.

Lt. Gov. Spooner is to deliver the Annual Address at the next Convention, to be held at Fond du Lac, on the 21st of June next.

A CONNECTICUT man has invented a watch which is simpler in its mechanism than ordinary watches, and will run 387 days with one winding.

INSPIRATION.—A lad in this city, under the inspiration of the good news received on Monday, produced the following:

Victory! Victory! ring ye bells,
For every sounding peal that wells
From out your throats, the story tells
Of Victory.

Victory! Victory! ring it out,
Let every freeman raise a shout
And every cannon war it out,
A Victory.

Victory! Victory! the trembling wire
Has borne it along like a stream of fire.
Prolong the shout, and raise it higher,
A Victory.

Victory! Victory! Richmond is ours.
The haughty foe at a distance cowers,
The God of Battles has blessed our powers
With Victory.

Victory! Victory! the end is near,
Long have we waited with hope and fear,
But now doth the hand of God appear
In Victory.

Victory! Victory! the rainbow sign,
Doth on the lowering war-cloud shine,
Showing us 'tis God's design,
This Victory.

Victory! Victory! honor the brave,
For many have found a soldier's grave.
Oh, what a costly price we gave
For Victory.

Racine, April 3rd, 1865.

Letter from Gov. Lewis—He Declines to be a Candidate for Re-Election.

STATE OF WISCONSIN,
EXECUTIVE DEPARTMENT,
Madison, March 29th.

Editors of the State Journal:

GENTLEMEN—Having received communications from persons in different parts of the State requesting me again to become a candidate for the office of Governor, seeing also my name mentioned in some of the public prints in connection with that position, to avoid a multiplicity of answers and put the matter at rest, I shall consider it a favor if you will permit me to reply through the columns of your paper. Although grateful for this mark of confidence manifested by the people towards me, and fully sensible of my duty as a citizen of the State, to sacrifice my private interests for the public good, when necessity calls upon me to do so, yet while there are so many good and true men who are not only willing but desirous to serve the people in this, as well as in other public stations, I cannot feel it a duty to again enter the political field. And when I consult my own happiness, the pleasures of a quiet home far outweigh those of public station.

Hence, tendering those who have taken an interest in my behalf my sincere thanks for this expression of kindly feeling towards me, I beg leave respectfully to decline again being a candidate for the office of governor. I am fully aware that there are those who censure me for this course, claiming it is my duty to permit the use of my name until the close of the present rebellion. To them I would say, the signs of the times plainly indicate that the rebellion will be put down and peace restored before the close of my present term. If this should not be so, there are, as I before remarked, good and true men willing to take the place, and doubtless men, too, who would bring to the position ability I do not claim to possess. I may be permitted further to say that this decision has not been made hastily, as it will be remembered that on assuming the duties of my present position I publicly stated that I did not desire again to be a candidate.

Hoping t e people in their selection of officers may be guided by wisdom from on high, and thus make choice of wise and good men,

I remain, yours truly,
JAMES T. LEWIS.

JEFF. DAVIS' HAUGHTY AMBITION.—A correspondent of the New York *Post*, with Sherman's army, remarks several times in his letters upon the change in the tone of the people whom he spoke with, upon the march to Fayetteville. A citizen whose sons have high commands in the rebel army, said to him:

"Sir, every life that is now lost in this war is murder, murder, sir. We have fought you bravely, but our strength is exhausted; we have no resources; we have no more men. The contest was unequal.—You have conquered us, and it is best to submit and make wise use of the future.—This is not my opinion because the Union flag is flying upon yonder Capitol to day, but it has been my conviction for many months past—a conviction confirmed by recent events. We would have peace, sir, were it not for the vain, obstinate, ambitious man, Jeff. Davis. I am not in excitement nor anger, sir, when I assure you that I know that a large majority of our people curse him not only with their hearts, but their lips. His haughty ambition has been our ruin."

THE report of the leading markets all over the country show a heavy decline in the principle articles of produce and manufactures, keeping pace with the depreciation in gold. The falling off in sugars, molasses, and every description of groceries, is heavy.

KENOSHA CO.—Senator Van Wyck has been nominated by the republicans of Kenosha county for the office of county judge.

CAPT JOHN H BELL, a Baltimore Presbyterian, has been made Lord Admiral in Chief of the Turkish navy, and allowed to keep his religion. The Sultan was generous to him.

THE Chief of Buffalo has warned all saloon keepers against giving liquor to young boys, permitting them to play cards, or encourage their attendance upon such schools of vice. Failing to heed this warning, he will prosecute them. Right.

WHEAT PROSPECTS.—The Alton *Telegraph* says the growing wheat since the opening of spring, is coming up finely, and the prospects for an abundant crop are excellent.

THE Coldwater (Mich.) *Sentinel* says that wheat in all parts of the country shows to good advantage since the disappearance of the snow.

AN arrangement has been effected for the exchange of 11,000 Union prisoness at a point on the Vicksburg and Jackson Railroad. Several hundred have already arrived there, and more are on the way from various points on the Mississippi and Alabama.

THE California mines are yielding heavily since the rains.

THE JUDICIAL ELECTION.—We have but few returns of the vote for Judges. Downer has no opposition. In this city Lyon's majority is about 300. The towns of Burlington, Waterford and Rochester give Noggle 222 majority. Yorkville gives Lyon 74 maj. Elkhorn gives Lyon 124.

For County Judge, Adams gets about 70 majority in Racine—70 in Yorkville. Burlington, Rochester and Waterford give McDonald 201 majority.

LECTURE BY JUDGE MCARTHUR.—Judge McArthur, of Milwaukee, has consented to deliver a lecture in this city on Monday evening next, the 10th inst. The only condition made by the Judge in accepting the invitation, was that he might have *a full house*. The announcement of the name of this popular and very talented speaker should be sufficient to secure a crowded audience in Racine; but in addition to this, the object in aid of which he lectures—that of founding and supporting a home for disabled and needy soldiers—should stimulate every one who can spare the small sum of two shillings, to attend. We have not hitherto thought it needful to urge this worthy charity upon the notice of our readers, because every State is engaged in a similar work. Surely Wisconsin will not be behind. The practical working of this institution, with its limited resources, is sufficient to show the need of greater facilities. Twenty-five hundred soldiers have had relief and care at the Home since the 15th of last April. Fifteen thousand five hundred meals have been served. Over two thousand soldiers have been entertained, on their passage to and from the State. Over four hundred sick and wounded soldiers have received medical and surgical attendance. Fifteen soldiers have died at the Home, all of whom, save one, were Wisconsin men. During all the time of its establishment the capacity for accommodation has been unequal to the demand, and the ladies of Milwaukee have been compelled to take many poor sufferers to their own dwellings. We cannot believe there are any in Racine who will require argument or persuasion to induce them to aid this good work. For the sake of the cause, and as a mark of respect for the learning and talent of Judge McArthur, let there be a full house.

GREAT REJOICING.—Monday was a grand holiday for the people of Racine. At an early hour in the forenoon all the flags were flying and the city was alive with rejoicings and congratulations. The capture of Richmond and the discomfiture of the rebel armies were the exclusive topics of conversation. In the afternoon the stores and other places of business were closed, and the cannons belched out a vigorous salute. In the evening most of the dwellings and stores were illuminated, and on Market Square there were bon-fires, fire-works, firing of cannons, martial music, interspersed with cheering and all the manifestations of joy that could be thought of for an impromptu celebration. Everybody was happy at the success of the Union army, and all the people are hopeful of a speedy termination of the war and the restoration of the Union.

BURNING OF THE DREDGE.—The burning of the dredge, on Tuesday night of last week, was an unfortunate occurrence, just at this time when the spring dredging of the harbor should commence. We understand, however, that it will be immediately rebuilt, and that in the mean time, there is a probability that we shall be able to borrow the Kenosha dredge for a time.

LECTURE OF MR. CLARK.—Owing to the excitement occasioned by the great news received on Monday, it was not supposed there would be an audience to hear the promised lecture of MR. CLARK, in the evening at the Church of the Good Shepherd. Quite a number of persons assembled at the appointed hour, however, and Mr. CLARK being present, entertained them with a very happy off-hand speech. He remarked that, in consideration of the joyous event which was being celebrated by the citizens, he would omit the lecture announced on the "*Etiquette of the Old and New World*," and speak of the soldiers and the great work they had performed. He spoke of the capture of Richmond, the excellent qualifications of our military men, and the present and prospective greatness of this as a military nation. The remarks of the speaker were well spiced with humor, and the audience gave repeated indications of satisfaction. With three cheers and a vote of thanks to Mr. CLARK, the meeting adjournd. His promised lecture will be given at a future time.

AGAIN AND AGAIN.—Our readers may think it strange that we so often urge upon their attention a medical preparation. Already have we, for a number of weeks, urged the importance of a supply of Coe's Cough Balsam in the house ready for immediate use. But our excuse is the vast amount of sickness, sorrow and death that are the immediate result of sudden coughs, colds and pulmonary attacks; while thousands of our children are dying from croup and lung complaints. Time and experience have proved that Coe's Cough Balsam is the most speedy and reliable preparation ever known to the world. Like magic it relieves the irritation of the throat, removes the stoppages that prevent breathing in croup, and heals all soreness of the throat, chest and lungs. No man should neglect to supply his family with a safe and reliable medicine like Coe's Cough Balsam, any more than he should neglect the supply of their daily bread. It costs but forty cents, and the bottles contain twice as much as those of any other remedy at the same cost, while in merit they are superior to all others. All drug stores keep it for sale.

The Ability to Pay Taxes.

The London *Economist* and the *Saturday Review*—neither of them at all partial to this country—have taken occasion lately to call attention to an important economical fact, developed by this war—the immense wealth of the population of the Free States. The *Economist*, in a recent able article on the subject of our "ability to bear taxation," demonstrates, as if against the popular opinion of England, our capacity to bear easily $600,000,000 annual taxation. The writer states that the great peculiarity of American society has not been understood in Europe—that is, the large number of people with an income say of $500. There are not, he admits, a body of men, representing, for instance, such an amount of property as is represented by the British Parliament, but there are a far larger number of small property-holders with taxable incomes than in England. Reckoning the average wages of the American laborers and small farmers at $1 50 a day, which he believes to be a low estimate, and the number of families in the Union at five and a half millions, he thinks the wage income of America would be equal to the property-income of Great Britain.

The income of our middle class he estimates as equal to that of the British middle class, though the former possesses less accumulated property. Suppose a tax laid corresponding to the English, of three shillings on the pound, he concludes that £120,000,000 could be raised here from direct taxes, without counting the indirect taxes on luxuries. With respect to the willingness of our people to pay, he entertains little doubt that where a debt is so universally held and where a population is so well off, the tax would be paid with but little grumbling. He does not see why an American "farmer" or artisan should not be willing to pay for the American nationality, or dignity, or safety, or whatever we consider it, as much as the British banker's clerk for the British—namely, three shillings on the pound. Grumblings there would be, but there are grumblings also from English rate-payers, and yet the poorest pay with little opposition. There might be many difficulties in collecting, but experience and ingenuity would gradually perfect modes of raising the taxes which would be the most effective and the least annoying. And, as he justly argues, it is hard to fix a limit to the amount of indirect taxes on luxuries which might be raised from so rich a people. His final candid conclusion is that the European public have not at all estimated correctly the American ability to bear taxation.

LOW WATER IN THE LAKES AND RIVERS.—The fact that the Western lakes and their tributaries are lower at the present than for many years, creates some unplesant apprehensions in the minds of navigators of the upper lakes. The *Advertiser* says the Detroit river is now some three feet below its average water mark, a circumstance which is of very little practical consequence to Detroit, excepting in so far as it may effect certain manufacturing establishments that are dependent upon the rivers for their daily supplies of water, involving the necessity of sinking their supply pipes a little farther down. That paper says:

"Some people have expressed the fear that the flats of Lake St Clair will prove too shallow to admit the passage of the larger lake steamers and vessels. Should there be no rise of water, it may be questioned whether vessels drawing over nine feet can pass the flats, which would of course prove a serious detriment to the upper lake trade. Had Colonel Graham's early suggestions, favoring a broader and deeper channel, been heeded by the Government, years ago, no serious apprehensions would now be felt on account of low water at that point. The Government, however, in this as in all matters appertaining to the commercial interests of the great lakes and straits, has manifested a most culpable ignorance and unpardonable neglect.—Whatever aid is called for to promote the development of the vast resources of the Northwestern States bordering on or tributary to the lakes, is either withheld entirely, or bestowed with a reluctance that indicates a total ignorance or reckless disregard of the commerce of this productive and growing region of country."

A POLISH lady, who was the bright luminary of a late ball in Paris, had adopted the emblems of the peacock, and every ornament and article of dress brought to mind the glittering colors and shining plumes of Juno's bird. The dress was of white tulle, embrordered all over with Argus' eyes. A tunic, reaching from the waist to a little below the knee, was composed of striped velvet, recalling the colors of the peacock; bunches of peacock's feathers everywhere, held together by boquets of emeralds and diamonds; and a peacock, this time not dismembered and dismantled, but perfect in form, shape and color, adorned her forehead. The ornament was composed entirely of the finest brilliants and emeralds, the neck of the bird, and its crest, being formed of the most splendid sapphires.

ABOUT twenty-five stores were swept away at Rochester during the recent flood there, and scarcely a dry building can now be hired at any price. There was great suffering there. The water rose so suddenly that many families escaped drowning only by getting upon the roofs of their houses, and many business men were kept at their stores, unable to get home. The farmers in that vicinity lost their stock, their buildings, and even the surface soil.

THE spring fashion has discarded the sky-scraping bonnets, and has brought in vogue the half-handkerchief bonnet, which a newspaper Montalini in New York reports as being "a dainty little fraction placed on the top of the head, and barely affording the requisite facilities for sustaining even a moiety of falling lace and clustering decorations which so delicate an atom requires."

THE damage at Little Falls, New York, by the swelling of the Mohawk, will be up $200,000. The factory for making paper from wood was totally destroyed.

MORE than thirty patents were published in the last six months of 1864 relating to petroleum. So petroleum is a lubricator of inventive genius.

Execution of Kennedy, the Rebel Spy and Hotel Burner.

From the New York Evening Post.

Robert Cobb Kennedy, convicted as a rebel spy, and as the incendiary who fired Barnum's Museum in November last, was hanged at Fort Lafayette, in presence of about one hundred spectators, besides the garrison of the fort and the bounty jumpers.

General Dix's steamer, the Henry Burden, left Castle Garden at ten o'clock, conveying Marshal Murray, his deputies, the executioner, and a few persons who had received passes from General Dix. At half past ten this party landed at Fort Lafayette, and the Marshal immediately proceeded to adjust the gallows.

The crowd of bounty jumpers and brokers who now fill the fort were gathered in idle groups as the Marshal's party entered, but were afterwards dismissed to their quarters, only the officers of the garrison and the sentries on duty then occupying the space around the gallows. Everything remained quiet until about 12½ o'clock, when signs of preparation began to be visible.

SCENE IN KENNEDY'S CELL

At 12:30 o'clock, Colonel Burke, the commandant of the fort, Marshal Murray and his deputy, the executioner, and two reporters for New York newspapers, entered the cell of the condemned, (No. 2, the same recently occupied by Joseph Howard, Jr.)

General Beale, (the rebel officer now on parole in this city to provide supplies for rebel prisoners.) Captain Willson and Chaplain Burke, of Port Hamilton, were found in the cell with Kennedy.

As Marshal Murray entered the cell, Kennedy rose from a table at which he had been writing, and the following colloquy ensued:

Marshal Murray—"I have come to prepare you for the execution."

Kennedy—"I know what your errand is. I am prepared for it. I am ready."

[The executioner here approached the prisoner.]

Kennedy (to executioner)—"I don't know you; I don't know who you are."

[General Beale here approached Kennedy, speaking in a low voice, and apparently endeavoring to restrain him.]

Kennedy (turning to the officers)—"All right! I am prepared for this thing. Bind my arms."

Kennedy then turned to one of the reporters, and begged him to do full justice to his memory in the account he was to write.

He then said farewell to Captain Wilson, and requested him to give his pipe to General Beale to forward to his mother.

Turning to the company, Kennedy then spoke as follows:

"This is hard for you d—d Yankees to treat me this way. I have been a regular soldier."

The executioner now began to bind Kennedy's arms. While this was in progress, Kennedy asked Gen. Beale for a handkerchief, and used it. When the black cap was placed upon his head, he asked, "Am I going to wear this thing to the gallows?" The answer was "Yes."

The preparations being now complete, the procession formed in line, and as it passed out of the cell door, Kennedy turned to General Beale with the remark—"This is a cowardly mur-

occupied the background, the brokers separated by a short interval from their victims. A dozen newspaper reporters stood near gallows.

THE EXECUTION.

The first act under the gallows was the reading of the findings and sentence of the court-martial which convicted Kennedy, with the order of General Dix confirming the sentence. During this ceremony, which was performed by Captain French, the prisoner preserved his composure, occasionally smiling or breaking out into such expression as these: "A d—d lie!" (referring to the charge of being a spy.) "That isn't a crime, is it?" referring to the charge of being in the rebel army.)

The reading of the death sentence having been concluded, Kennedy said in a loud voice: "Gentlemen! this is murder."

Turning to Colonel Burke, he said: "Colonel, come here, please."

Marshal Murray here stepped up to Kennedy, laid his hand upon his shoulder, and remarking, "One moment," checked him, while the attending clergyman opened the book of Common Prayer and began to read the service for the condemned.

Kennedy, standing bareheaded and with pinioned arms, listened respectfully, frequently using a white pocket handkerchief with difficult efforts of his left hand. A deathly silence prevailed, broken only by the clear voice of the clergyman, a venerable man, who was visibly affected.

At the conclusion of the prayer, the clergyman kneeled in front of the prisoner and offered a touching plea in his behalf. Kennedy, still standing, looked down upon his spiritual guide and made no remark until the end of the supplication.

Dr. Burke then shook Kennedy's hand, bade him farewell, and implored him to act like a man and Christian.

Kennedy bowed in response to this appeal, and then, calling to Colonel Bark, said: "Colonel, send me a drink before I go!"

KENNEDY'S LAST SPEECH AND HIS DYING SONG.

The clergyman retiring, Kennedy again spoke in a loud voice, as follows:

"I consider this a judicial, brutal, cowardly murder. There was no occasion for the United States Government to condemn me."

Pausing for a moment, he again said, "Tell my friends"——

The sentence remained unfinished.

The executioner here came forward to adjust the noose.

Kennedy then suddenly broke out with the following verse, which he sang in a loud, clear voice, to a rollicking Irish air, and with a touch of the brogue:

> "Trust to luck! trust to luck!
> Stare Fate in the face;
> For the heart will be aisy,
> If it's in the right place."

The verse had scarcely been finished when the signal was given, the cord was cut, the weight fell, and Kennedy sprang into the air, dying almost instantly—the sudden violence of the shock having broken his neck.

After hanging for twenty minutes, the body was lowerd, life declared extinct, and the remains, placed in a common stained pine coffin, were delivered to Kennedy's friends.

There was a general shudder of horror among the spectators at the profane and impenitent ending of this man. As he stood under the gallows, he showed no symptoms of fear, but betrayed the effects of over-indulgence in stimulants. His speech was thick and his gait unsteady.

LAWS OF WISCONSIN.

OFFICIAL.

[Published March 24, 1865.]

CHAPTER 183.

AN ACT to amend section fourteen (14) of chapter three hundred and fifteen (315) of the general laws of 1860, entitled "an act to provide for letting the public printing by contract, and to establish maximum prices for the execution thereof," and to provide for reletting the same, in certain cases.

The people of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. Section five (5) of chapter three hundred and fifteen (315) of the general laws of 1860, entitled "an act to provide for letting the public printing by contract, and to establish maximum prices for the execution thereof," is hereby so amended as to read as follows: "Section 5. Every bid for printing or binding shall be accompanied by a certificate from the state treasurer, that the bidder or bidders have deposited with him one thousand dollars in money, or United States bonds, or the bonds of the state of Wisconsin, which certificate shall be deposited with the secretary of state. Such certificate shall be accompanied by a written agreement of such bidder or bidders, under seal, which shall be to the effect, that if the bid be accepted, and such bidder or bidders are notified thereof, he or they shall fail to enter into an obligation within the time prescribed by the commissioners, with good and sufficient sureties, for the performance of the service proposed, as hereinafter prescribed, and as contemplated in this act, said thousand dollars so deposited shall become absolutely forfeited to and shall belong to the state; and such agreement shall further be to the effect, that in case such bid is accepted and such bidder or bidders enter into the obligation, and with the sureties hereinafter mentioned, to perform the services proposed, and such bidder or bidders fail to comply with their contract, and fail to perform such services, then and in such case the thousand dollars so deposited shall be absolutely forfeited to the state, and shall be no part of the penalty or damages to be paid and recovered upon such obligation; and in case such bid be rejected, the certificate and written agreement shall be returned to the bidder or bidders, otherwise the same shall be retained until such obligation and contract be fully complied with. Every bid for printing and binding shall also be accompanied by a written guarranty, signed by such bidder or bidders, and two or more responsible persons, to be approved by the commissioners, to the effect that they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation, in such time as may be prescribed by the commissioners, with good and sufficient sureties, to perform the services proposed. No bid shall be considered unless accompanied by such certificate from the state treasurer, written agreement and guarranty. If, after the acceptance of a bid, and notification thereof to the bidder or bidders, he or they shall fail to enter into an obligation within the time prescribed by the commissioners, with good and sufficient sureties, in the sum of thirty thousand dollars, for the performance of printing, binding and furnishing materials, as contemplated by this act, then the commissioners shall proceed to let the contract to the next best bidder, unless, in their opinion the best interests of the state require that new proposals shall be received, in which case they shall immediately proceed to advertise for new proposals, in the manner prescribed by this act."

Sec. 2. Section fourteen of said chapter three hundred and fifteen (315) is hereby so amended as to read as follows: "Section 14. If any bidder or bidders shall fail to enter into contract within the time prescribed, after the commissioners shall have accepted his or their bids, the bidder or bidders and the persons who were guarrantors on such forfeited bids, shall each forfeit to the state the sum of five thousand dollars, besides the one thousand dollars deposited with the state treasurer, and shall be further liable to the state in damages to the amount of difference between the cost of the public printing under their bids, and the cost under any subsequent contract or contracts made by the commissioners in pursuance of the provisions of law for the execution of such printing, during the term covered by the bid of the party so forfeiting the same; and if any bidder or bidders shall enter into such obligation and contract, as provided in section one of this act, and shall at any time thereafter, before the expiration of their term of contract, refuse or neglect to do the public printing, or refuse or neglect to do the same according to the terms of their contract, and the provisions of law, the bidder or bidders, and the persons who are sureties upon such obligation, shall forfeit to the state the sum of thirty thousand dollars, besides the thousand dollars deposited with the state treasurer, and shall be further liable to the state in damages to the amount of difference between the cost of the public printing under their contract, and the cost under any subsequent contract or contracts made by the commissioners, in pursuance of the provisions of law, for the execution of such printing during the term covered by the contracts of the party or parties failing to perform. And it shall be the duty of the commissioners to commence and prosecute to final judgment, an action for the recovery of such penalty and damages forthwith, against such bidder or bidders, and such guarantors, in case such bidder or bidders fail to enter into such obligation, as required by law, and to commence and prosecute to final judgment, an action for the recovery of such forfeiture, penalty and damages against such bidder or bidders, and their sureties so entering into such obligation, and who shall thereafter so fail or neglect to do the public printing, or refuse or neglect to do the same according to the terms of their contract."

Sec. 3. In case of the refusal or neglect of the contractor or contractors to execute the printing according to the terms of their contract, the commissioners shall immediately proceed to relet the contract, by the publication in at least ten (10) newspapers published in the state, of a simple notice that bids will be received for twenty (20) days, according to the specifications on file in the office of the secretary of state, under the same restrictions relative to filing security with each bid, as provided in section one of this act, and in the manner prescribed by the act whereof this amendatory, allowing the successful bidder or bidders, if they so desire, thirty (30) days from the time of awarding their contract, before entering upon the execution of the same.

Sec 4. The commissioners are hereby authorized, at any time when there is no existing contract for executing the public printing, or in case the contractor or contractors refuse or neglect to perform the public printing under their contract, to procure all necessary printing to be done at the state capital, at the lowest terms possible, until the same may be relet under the provisions of this act.

From the Dubuque Times.

An Enoch Arden Case in Dubuque.

Thirty months ago a German, living on White street in this city, volunteered with the 21st Iowa infantry, and went to war.—We shall call him Schmidt for short. He left a wife, who was rather good-looking, quite industrious, very frugal and childless.

Time rolled on and Schmidt went with his regiment to Vicksburg. There he was shot one day, and was left for dead on the field.

The sad intelligence was sent to his wife by his Captain, and she immediately obtained the assistance of a lawyer, secured his back pay and a widow's pension. She drew the latter regularly, and, with what she earned, managed to live comfortably. In a few months she attracted the attentions of one Schones, who we see is a *Miller* by occupation. He wooed and won, and for him she gave up the pension. They were married last summer. The course of true love ran smooth with them until last Saturday morning, when, just after they had finished breakfast, *Mr. Schmidt, the first husband, opened the door and walked in!*

Here was a fix! Mrs.—what would her name be in such a case—shrieked; Mr. Schones turned pale and trembled, for Schmidt looked vengeance after he had surveyed the scene a moment and taking all its meaning in.

After several minutes of silence, Schones revived, and boldly asked, "What was to be done?" Schmidt sat down and told his story. He was wounded—not severely—near Vicksburg, and taken prisoner, and the rebels carried him away with them. From that time he had been in Southern prisons until three weeks since, when he was exchanged. He came to Dubuque as soon as he could, and hastened to his home. He received no intimation of his wife's marriage until he entered the house that morning. As he concluded his story, his feelings overcame him and he wept, and *she* wept also. But it all ended in the second husband's refusal to give the wife up. She, we are informed, refused to express a preference, and said the two men might settle the matter between themselves.

For four days both men kept very close to the house, and had many ardent discussions over their difficulty.

But the matter ended on Wednesday last. The returned husband offered Schones twenty-five dollars to evacuate the premises, and leave him in the possession of "Annie."—Schones accepted the offer, pocketed the money and left. Schmidt is now with his wife.

The above is a true statement—the names only being incorrect.

COOL PROCEEDING OF A WISCONSIN OFFICER.—A correspondent of a New York paper, giving an account of the battle of Kinston, relates the following anecdote of Lieut. Col. Scott of the 17th Wisconsin. It is one of the coolest proceedings we have read of:

During the first day's fight near Kinston, Lieut. Col. Scott, of the 17th Wisconsin, suddenly and unexpectedly ran upon five rebels. Assuming a bold front, he ordered them to surrender. One of them replied, "I am hungry and tired; I will do most anything for something to eat." "Yes, you will," said the Colonel; "come here." The fellow then tremblingly took aim at Col. Scott. "You drop that," exclaimed the Col., "and come right here." He did as he was told. "No, hand me that gun." He obeyed again. The Colonel now having a weapon to use, took aim at the others successively, and, by the same cool effrontery already indicated, brought them all to his side and took them in triumph.—Strange to say, he was without his pistol, having no weapon to commence with but his sword and his boldness.

THE Prince of Wales has just issued a circulation to his trades people, informing them that he has an objection to be robbed by their complicity with his servants, in offering the latter percentage upon the amount of his bills. People think that the Prince, in common with other great people, will not be able to help himself.

A New island has been discovered in the Pacific ocean, 800 miles north-northeast of Guam. It is about five miles long, densely covered with trees, and probably uninhabited.

AT least 8,000 engines will be at work in the Pennsylvania oil regions this summer.

Price $1, $1 50 and $3 per box, according to size.

Cristodoro's Hair Preservative

Is invaluable with his Dye, as it imparts the utmost softness, the most beautiful gloss, and great vitality to the Hair.

BRANDRETH'S PILLS.

They expel the poisons which threaten life. Every time a sick person is purged by this vegetable remedy, he has less vitiated humors and more life and vigor, as any one can prove by taking a single dose. Persons of spare habits gain flesh and strength while using them. Every time we rest a few days or weeks from the purgation, we make new fluids from our food, which replace the unsound ones that the Pills have caused to be evacuated.—Each time we repeat this process, we expel further quantities of impurities, which are again replaced by fluids less and less impure, so that in a short time, by continuing this treatment, we bring back the whole mass of fluids or humors to that state of purity which constitutes health, for Brandreth's Pills only take away humors which are unsound.

Sold by Geo. Gorton and H. Stone, Racine, and by all respectable dealers in medicines. Ask for new style.

CHEROKEE CURE.

WISE TO KNOW, BUT WEAK TO DO.—There is no more pitiable sight than that of a young man stricken by weakness of will, yet possessed of sufficient knowledge to feel the loss. Wishing to do, but too enervated in will and in body to act. Heavy eyed when he should possess the eye of an eagle, listless when every nerve should tingle with energy, dreaming in lieu of doing, fearing marriage instead of seeking it, and fast sinking into a driveller and a warning to others, and all through seminal weakness, due to over-indulgence, natural or unnatural, displays, in loathsome emissions that humiliate and disgust him. To such we say, take the CHEROKEE CURE, observe the directions that accompany it faithfully, and it will infallibly bestow what nature meant you to possess: strength, energy, health, and, in lieu of impotency, manly power.—Read the advertisement. Sold by GEO. GORTON. jn8

ROBACK'S STOMACH BITTERS.

It has long been the aim of physicians to find a combination of medicines having the requisite stimulating and tonic properties to relieve and cure the common complaints of Biliousness, Liver disorders, Languor Headache, Lowness of Spirits, Indigestion, Jaundice, Fever and Ague, &c., which are the diseases incident to this climate. The remedy has been discovered by Dr. Roback, and in thousands of cases the merits of his Bitters have been tested in the above complaints, and there is but one voice from the people, and that is in favor of these truly wonderful Stomach Bitters. We advise all who are afflicted and need an agreeable tonic for the troubles above indicated, to commence at once using these Bitters. See advertisement.

A Remedy for the Piles.—It is a blessing to to the suffering to know that we have an effectual cure for this truly troublesome disease. Mr. J. P. Hazards, of 164 Second street, Cincinnati, O., takes great pleasure in informing all who are suffering with Piles, that he used a small quantity of Dr. Strickland's Pile Remedy, and it effected a permanent cure. This seems to be the case with all who use of this splendid preparation. It is manufactured at No. 6 East Fourth Street, Cincinnati, O., and sold by all Druggists.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three tenths per cent. interest, per annum, known as the

SEVEN-THIRTY LOAN,

These Notes are issued under date of August 15th, 1864, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent. GOLD-BEARING BONDS.

These bonds are now worth a premium of nine per cent., including gold interest from Nov., which makes the actual profit on the 7-30 loan, at current rates, including interest, about ten per cent. per annum, besides its *exemption from State and municipal taxation, which adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

GREAT POPULAR LOAN OF THE PEOPLE

Less than $200,000,000 remain unsold, which will probably be disposed of within the next 60 or 90 days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscription to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Lyon's Kathairon.

Kathairon is from the Greek word "Kathro," or "Kathaior," signifying to cleanse, rejuvenate and restore. This article is what its name signifies. For preserving, restoring and beautifying the human hair it is the most remarkable preparation in the world.—It is again owned and put up by the original proprietor, and is now made with the same care, skill and attention which gave it a sale of over one million bottles per annum.

It is a most delightful Hair Dressing.

It eradicates scurf and dandruff.

It keeps the head cool and clean.

It makes the hair rich, soft and glossy.

It prevents the hair from falling off and turning gray.

It restores hair upon bald heads.

Any lady or gentleman who values a beautiful head of hair should use Lyon's Kathairon. It is known and used throughout the civilized world. Sold by all respectable dealers.

Hagan's Magnolia Balm.

This is the most delightful and extraordinary article ever discovered. It changes the sun burnt face and hands to a pearly satin texture of ravishing beauty, imparting the marble purity of youth and the *distingue* appearance so inviting in the city belle of fashion. It removes tan, freckles, pimples and roughness from the skin, leaving the complexion fresh, transparent. Patronized by Actresses and Opera Singers. It is what every lady should have. Sold everywhere.

Mexican Mustang Liniment.

The parties in St. Louis & Cincinnati, who have been Counterfeiting the Mustang Liniment under pretence of proprietorship, have been thoroughly estopped by the Courts. To guard against further imposition, I have procured from the U. States Treasury, a private steel plate revenue stamp, which is placed over the top of each bottle. Each stamp bears the *fac simile* of my Signature, and without which the article is a Counterfeit, dangerous and worthless imitation.—Examine every bottle. This Liniment has been in use and growing in favor for many years. There hardly exists a hamlet on the habitable Globe that does not contain evidence of its wonderful effects. It is the best emollient in the world. With its present improved ingredients, its effects upon man and beast are perfectly remarkable.—Sores are healed, pains relieved, lives saved, valuable animals made useful, and untold ills assuaged. For cuts, bruises, sprains, rheumatism, swellings, bites, caked breasts, strained horses, &c., it is a Sovereign Remedy that should never be dispensed with.—It should be in every family. Sold by all Druggists.

Those of a nervous temperament whose sickness adds a keener anguish to the ills of life, become blessed with a new existence and their tears of anguish are changed to smiles of joy, by using them.

BRYAN'S LIFE PILLS

Are Adapted for all Ages and Constitutions.

They are composed of the active principles of Herbs and Roots culled from our fields and forests. They are mild but certain in their operation—producing neither cramps, griping pains or sickness. They may be taken by all ages, sexes or conditions without fear.

To cure disease we must go further than simply purge the bowels; we must use such remedies as act in harmony with the laws of nature, in the gentlest manner. A cathartic mere prepares the way for other means, but is indispensable in very many cases to evacuate the bowels of accumulated acrid matter. A disordered system comes on by slow degrees, and the action of medicine must be in like manner. Disease, though local in its character, affects more or less the whole system; and it is necessary to act in a similar manner on the system by blood-healing and purifying remedies—first, locally on the stomach and bowels, and then on the whole system. The medicine, instead of all going through the bowels, should partially remain in it until a change is affected, so as to accomplish the work designed; therefore, a simple cathartic pill is not what the system wholly requires. A medicine is necessary that will not only operate on the bowels, but have an especial action on the secretions of the Liver, Stomach, Nerves, Kidneys and Alimentary Canal and finally on the Blood. Such, then, is the operation of BRYAN'S LIFE PILLS; consequently, they are invaluable in all cases of Dyspepsia, Headache and Nervousness, and will expel all humors from the blood. They act on all parts of the system, and influence a change in those organs that are deranged, and can be successfully used in any disease that affects the human frame. They have healthful and life-giving properties, which, being taken up by the many minute vessels, enters the blood and assists nature to perform her functions. If attention is paid to the digestive organs and regular evacutions of the body, much disease may be prevented; and these Pills are designed to effect that end, as they not only act on the Biliary Secretions by promoting digestion, but carry off, through the bowels and kidneys, all irritating humors. Nature expounds her laws, and the practice that falls in harmony with them is most successful. No medicine should be taken that weakens the system, and prevent the proper performance of the functions of the body; the vast machinery of the human fabric must be kept in order, or some part becomes influenced by undue excitement; the whole system must be nourished, or it dies; so, by understanding fully the laws upon which life and health depend, we can guide the system by the silent forces of nature and keep all the functions in harmonious order. Such is the design of BRYAN'S LIFE PILLS; for although a mild cathartic, they never weaken the system, but restore it to a natural equilibrium—and this great principle lies at the foundation of every disease. They act on all parts of the system, and influence a change in those organs which are deranged. The utmost reliance may be placed on these Pills; they are the result of deep-sought study and experience in the true action of nature's remedies, directed to the cause that lies at the foundation of disease. They have been tried by thousands with successful results, and they are now placed before the people with the greatest confidence.

A Box of BRYAN'S LIFE PILLS will cost but

TWENTY-FIVE CENTS.

They will accomplish faithfully all that is represented.

They are elegantly put up by the proprietor, who was the Inventor of BRYAN'S PULMONIC WAFERS, a medicine long and favorably known to the American Nation.

If you wish to buy BRYAN'S LIFE PILLS and cannot get them of your druggists, dont take any other, but send Twenty-five Cents in a letter to the proprietor, and you will get them by return of mail, post paid.

DR. ROBACK'S

BLOOD PURIFIER

and

BLOOD PILLS

have been introduced to the public for more than eight years, and have acquired an

Immense Popularity,

far exceeding any Family Medicines of a similar nature in the market.

An appreciating public were not long in discovering they possessed remarkable

Curative Properties,

and hence their

Rapid Sale,

and consequent profit to the Proprietor, thus enabling him to expend

Many Thousands

of dollars each year in advertising their merits, and publishing the

Numerous Certificates

which have been showered upon him from

All parts of the Country,

The peculiarity of the

Blood Purifier and Pills

is that they strike at the root of Disease, by eradicating every particle of impurity

In the Blood,

for the life and health of the body depends upon the purity of the blood.

If the blood is poisoned, the body drags out a miserable existence. These medicines

Are Unequaled

for curing

Scrofula,	**Syphilis,**
Skin Diseases,	**Old Sores,**
Salt Rheum,	**Rheumatism,**
Dyspepsia,	**Sick Headache,**
Liver Complaint,	**Fever and Ague,**
Leucorrhea,	**Female Complaints.**
Erysipelas,	**St. Anthony's Fire,**
Tumors,	**Eruptions,**
Fits, Scrofulous	**Consumption, etc.**

ONE person writes, her daughter was cured of fits of nine years standing, and St. Vitus' dance of two years.

ANOTHER writes, his son was cured after his flesh had almost wasted away. The doctors pronounced the case incurable.

ANOTHER was cured of Fever and Ague after trying every medicine in his reach.

ANOTHER was cured of Fever Sore which had existed fourteen years.

ANOTHER of Rheumatism of 8 years.

Cases innumerable of Dyspepsia and Liver Complaint could be mentioned in which the Purifier and Pills

Work like a Charm.

THE BLOOD PILLS

are the most active and thorough pills that have ever been introduced.

They act so directly upon the Liver, exciting that organ to such an extent as that the system does not relapse into its former condition, which is too apt to be the case with simply a purgative pill.

They are really a

Blood and Liver Pill,

which, in conjunction with the

BLOOD PURIFIER,

will cure all the aforementioned diseases, and, of themselves, will relieve and cure

Headache,	**Costiveness,**
Colic Pains,	**Cholera Morbus,**
Indigestion,	**Pain in the Bowels,**

Try these Medicines and you will never regret it.

Ask your neighbors, who have used them, and they will say they are

Good Medicines,

and you should try them before going for a Physician.

Get a Pamphlet of my local Agent, and read the certificates, and if you have ever doubted, you will

Doubt no more.

As a proof that the Blood Purifier and Pills are purely vegetable, I have the certificates of those eminent chemists, Professors CHILTON, of New York, and LOCKE, of Cincinnati.

CHEROKEE CURE

THE GREAT

INDIAN MEDICINE

ROOTS, BARKS AND LEAVES

An unfailing cure for *Spermatorrhea, Seminal Weakness, Nocturnal Emissions,* and all diseases caused by *Self-Pollution,* such as *Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficulty of Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption,* and all the direful complaints caused by departing from the path of nature.

This medicine is a simple vegetable extract, and one on which all can rely, as it has been used in our practice for many years, and with thousands treated, it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn case.

To those who have *trifled with their constitution,* until they think themselves beyond the reach of medical aid, we would say, DESPAIR NOT! the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

Price Two Dollars per bottle, or three bottles for Five Dollars, and forwarded by Express to all parts of the world.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks and Leaves

CHEROKEE REMEDY, the great Indian Diuretic cures all diseases of the Urinary Organs, such as Incontinence of the *Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gonorrhea, Gleet,* and is especially recommended in those cases of *Flour Albus, (or Whites in females,)* where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two teaspoonfuls three times per day.

It is *diuretic* and *alterative* in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the **Cherokee Remedy,** and should be used in conjunction with that medicine in all cases of Gleet, Gonorrhea, Fluor Albus, or Whites. Its effects are healing, soothing, and demulcent; removing all scalding, heat and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

By the use of the CHEROKEE REMEDY, and CHEROKEE INJECTION—the two medicines at the same time—all **improper discharges** are removed, and the weakened organs are speedily restored to full vigor and strength.

Price, **Cherokee Remedy, $2 per** bottle, or three bottles for $5.

Price, **Cherokee Injection, $2 per** bottle, or three bottles for $5.

Sent by Express to any address on receipt of price.

The Cherokee Remedy, Cherokee Injection and **Cherokee Cure,** are sold by all enterprising Druggists in the civilized world. Some unprincipled dealers, however, try to sell worthless compounds in place of these; those which they can purchase at a cheap price, and make more money by selling, than they can on these medicines. As you value your health, aye, the health of your future offspring, do not be deceived by such unprincipled Druggists, ask for *these medicines and take no others.* If the Druggists will not buy them for you, enclose the money in a letter, and we will send them to you by Express, securely sealed and packed free from observation.

Ladies or Gentlemen can address us in perfect confidence, stating fully and plainly their diseases and symptoms, as we treat all diseases of a chronic nature in male or female. Patients need not hesitate because of their inability to visit us, as we have treated patients successfully in all portions of the civilized globe, by correspondence.

Patients addressing us will please state plainly all the symptoms of their complaints, and write Post-office, County, State and name of writer, plain, and inclose postage stamp for reply.

A SURE CURE.

Everybody is being cured of this distressing disease by the use of

DR. STRICKLAND'S PILE REMEDY.

Read what they say who have used it:

Mr. Chas. W. Landrum, of Louisville, and Mr. J. P. Hazards, of Cincinnati, O., both were cured after using one pot of Dr. Strickland's Pile Remedy. They say they have tried everything, but could obtain no relief, but one pot of Dr. Strickland's Pile Remedy effected a perfect cure, after suffering for many years with the worst kind of Piles. They recommend every one who is suffering to try it.

Sold by all druggists, 50 cents per pot. Manufactured at No. 6 East Fourth street, Cincinnati, O. Ask for *Dr. Strickland's Pile Remedy.*

STRICKLAND'S

Anti-Cholera Mixture.

Is a composition of astringents, stimulants and carminatives, which every physician acknowledges is the only preparation that will effect a permanent cure of Diarrhœa and Dysentery. This Anti-Cholera Mixture is now in use in several of our army hospitals, where it gives the greatest satisfaction. It has saved the lives of thousands of our soldiers and citizens, and we will guarantee it to be the best Remedy in the world for Diarrhœa and Dysentery.

Mr. Woods, of Covington, Ky., will be most happy to attest any one as to the virtue of Strickland's Anti-Cholera Mixture; in fact we have a great number of testimonials from patients who have been cured after being pronounced incurable by their physicians, some after taking only one bottle of Strickland's Anti-Cholera Mixture. If you suffer with Diarrhœa and Dysentery, try one bottle.

SOLDIERS!

You ought not to be without such a valuable medicine. The Cincinnati National Union, of April 24th, says: that thousands of our soldiers have been saved by the use of Strickland's Anti-Cholera Mixture. For sale by Druggists, at 50 cents per bottle.

A healthy tonic, gentle stimulant and unequalled morning appetizer. Prepared in ripe old Bourbon. Being now used to the exclusion of all other Bitters in more than fifty United States *Army Hospitals,* and millions of private families, and is the *only* popular medicine which has been especially *exempted from stamp tax* by the United States government, on the ground of its having been adopted as a standard *remedy* by the medical profession.

SWAIN'S BOURBON BITTERS

They are made of ingredients well known and approved by the *medical profession,* as having *powerful tonic properties,* are both palatable and pleasant, with sufficient *strengthening properties* to correct the bilious derangement of the system, and act like a charm when taken according to direction, as a remedy for the following diseases:—*Indigestion, Dyspepsia, Jaundice, Liver Affections, Loss of Appetite, Lowness of Spirit, Sallow Complexion,*

SWAIN'S BOURBON BITTERS

FOR

Headache, Costiveness, and kindred diseases, arising from a disordered condition of the Stomach, Liver, or Bowels. Let *every one try* these agreeable Bitters; once tried and used, they will recommend them with confidence to all others who are in need of a wholesome, agreeable and effectual tonic. The rapidly increasing demand for these Bitters has induced me to give them publicity, so that thousands who have not used them, may try them and be convinced of their efficacy.—

SWAIN'S BOURBON BITTERS

Ladies, who have tried and found most other "*Stomach Bitters*" *too bitter, unpalatable* and *too highly medicated* for their delicate taste, please give these a trial, and you will not be without them. They will give tone to the stomach, and strength to the whole system.

If your druggist or tradesman has not got *these Bitters,* have him send for them.—

Remember the name, and take no other,

SYMPTOMS.

The symptoms of Catarrh as they generally appear are at first very slight. Persons find they have a cold, that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition, the nose may be dry, or a slight discharge, thin and acrid, afterward becoming thick and adhesive. As the disease becomes chronic, the discharges are increased in quantity and changed in quality; they are now thick and heavy, and are hawked or coughed off. The secretions are offensive, causing a bad breath; the voice is thick and nasal; the eyes are weak; the sense of smell is lessened or destroyed; deafness frequently takes place. Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a thick or slimy mucous, which has fallen down from the head during the night. When this takes place, the person may be sure that his disease is on its way to the lungs, and should lose no time in arresting it.

The above are but few of the many Catarrhal symptoms.

A Single Bottle will last a month—to be used three times a day.

FRIENDS AND RELATIVES

OF THE

Brave Soldiers and Sailors.

HOLLOWAY'S PILLS AND OINTMENT.

ALL WHO HAVE FRIENDS AND RELATIVES in the Army and Navy, should take especial care, that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldiers' never-failing friend in the hour of need.

COUGHS & COLDS AFFECTING TROOPS,

Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box.

Sick Headaches and Want of Appetite, Incidental to Soldiers.

Those feelings which so sadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholesome, thus disturbing the healthful action of the liver and stomach. The organs must be relieved, if you desire to be well. The Pills, taking according to the printed instructions, will quickly produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

Weakness or Debility Induced by Over Fatigue

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the Bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acrid humours from the system. This medicine will give tone and vigor to the whole organic system however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

Volunteers Attention! Indiscretions of Youth.

Sores and Ulcers, Blotches and Swellings, can with certainty be radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another. Whereas this Ointment will remove the humors from the system and leave the Patient a vigorous and healthy man. It will require a little perseverance in bad cases to insure a lasting cure.

For Wounds either occasioned by the Bayonet Sabre or the Bullet Sores or Bruises.

To which every Soldier and Sailor are liable, there are no medicines so safe, sure and convenient as Holloway's Pills and Ointment. The poor wounded and almost dying sufferer might have his wounds dressed immediately, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all round it, then covered with a piece of linen from his Knapsack and compressed with a handkerchief. Taking night and morning 6 or 8 Pills, to cool the system and prevent inflammation.

Every Soldier's Knapsack and Seaman's Chest should be provided with these valuable Remedies.

CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

*** Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world. Owing to the high price of Drugs, etc., they are now retailed at 30 cents, 70 cents, and $1 10 per box or pot.

There is considerable saving by taking the large sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.
